

# Moodle Back-to-School Bootcamp

‘Just in time’ training for all Moodle users

REMC 5 will implement a **Moodle** Course Management System for the 2011-2012 school year. Participants in this workshop will learn the basics of setting up a course in Moodle and also explore advanced features available. A hands-on approach will allow educators time to create courses using their own materials. Participants can customize their experience by choosing to attend for 1, 2 or 3 days!

1 day: .5 SBCEU \$25

2 days: 1 SBCEU \$50 or 1 CMU credit\* \$300

3 days: 2 SBCEUs \$75 or 2 CMU credits\* \$600

\*Completion of additional time online required for CMU credit

**Day One:** Introduction to Moodle and basic course creation elements, brief overview of advanced course design features

**Day Two:** Continued course development work, advanced course design features

**Day Three:** Continued course development work, creating assignments and assessments

**Select 1, 2, or 3 days when registering**
